Our Mission

Sanford Burnham Prebys Medical Discovery Institute conducts world-class collaborative research dedicated to finding cures for human disease, improving quality of life, and educating and training the next-generation of scientists, thus creating a legacy for its employees, partners, donors and community.

OUR STORY

- Sanford Burnham Prebys discoveries begin with our people—scientists, postdoctoral fellows, graduate students and support staff—who work collaboratively toward understanding the cause of disease and identifying new therapeutic approaches to improve human health.
- As an independent, nonprofit institution, we focus on conducting biomedical research including cancer, neuroscience, immunology and children's diseases.
- Sanford Burnham Prebys is home to one of the most comprehensive drug discovery centers in the nonprofit world.
- Our innovative approach to research underpins our strategic partnerships with the biotech and pharmaceutical industry.
- We cultivate the next generation of biomedical scientists through our graduate and postdoctoral training programs.
